# THE TRAP IS SET TO SLICE YOUR COMPETITION IN HALF.

Hello. You've lived a life of weak down lane ball motion, failing to turn the Corner when you needed that strike at the most important of moments. Your opponents have thrived on your inability to hook the ball in heavy oil. Now, I offer you a chance at redemption. Can you take back the hook and backend power that you've sacrificed all these years? Are you willing to endure the pain it takes to get out of this trap? Live or die...the choice is yours.

The Hammer Jigsaw Corner is the piece of the puzzle you need to survive. There's no need to suffer through heavy oil lane conditions. The Jigsaw Corner uses a new Quick Corner 5/4 coverstock, improving the angularity and backend motion in our Jigsaw series. With its 500/4000 finish, and a low RG core, Jigsaw Corner is prepared to take on the heaviest oiled lane conditions by cutting through the oil and turning this Jigsaw down lane. The choice is yours.

World Wide Release Date: 1/12/2010
